Electrical Panels Manufacturing

Manufacturing electrical panels that meet the specific needs of clients is our specialty. The electrical panels are made from high-quality stainless steel and mild steel. They are designed to be safe, reliable, and efficient.

Cable Trays, Ladder & BTD

A wide range of cable trays, ladders, and BTDs made from high-quality materials is available. These products are designed to meet the requirements of the customers and are available in MS Hot Dip Galvanized/Powder coated & GI options.

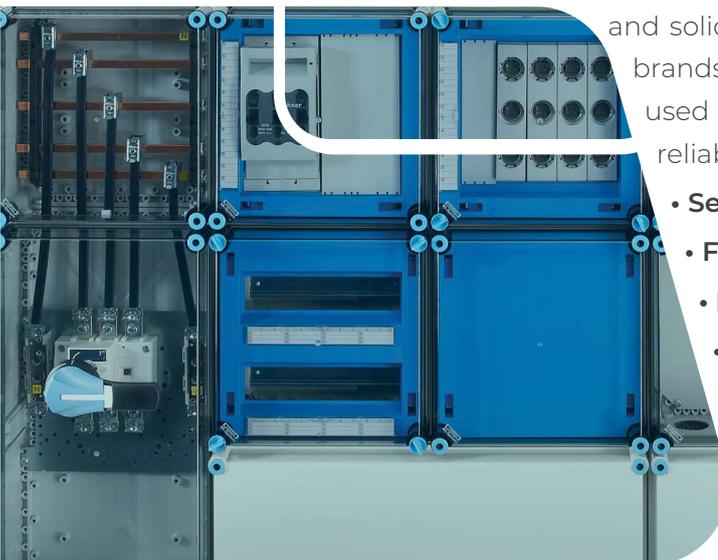

Portable Extension Units

Compact, lightweight, and easy-to-use portable extension units come in a variety of sizes and configurations, making them suitable for use in various applications.

Weather-Resistant Solutions

Customizable solutions to address the high demanding needs of industries. These modular enclosure systems are designed to be suitable for indoor, protected outdoor, and harsh environments. They provide Class-II protection and assure protection against liquids and solids up to **IP66**. Renowned German brands **Hensel and Walther Werke** are used to ensure the highest quality and reliability of the solutions.

- Self Extinguishing
- Flame Retardant
- Polycarbonate Material
- High Impact Resistance
- Chemical Resistance
- U.V Resistance

Solar Solutions

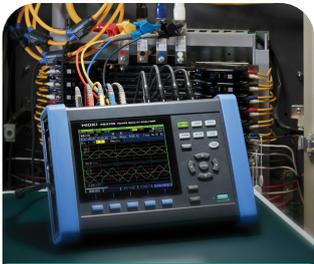

Renergent is committed to making the world cleaner and healthier. From development to operation, we create and operate valuable solar and storage projects that have benefited our customers for years. Renergent Energy provide full line of solar products, installation services, and turnkey solutions to our customers.

We are dedicated to provide top-notch services and executing solar energy projects with utmost precision. Whether you're looking to power your home or business with renewable energy, we can meet your requirements.

- ✓ AEDB certified
- ✓ PSA certified
- ✓ IEC compliance cable laying and protection systems.
- ✓ Engineered structure to withstand up to 140 km/hr wind.

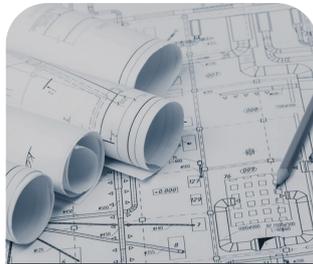

Engineering Solutions & Services

Power Quality Analysis

Anomaly Detection in Harmonics, Transients, Dips & Swells etc.

Electrical Design & Consultancy

Designing of SLDs, Wiring Diagrams, Component Layouts & BOMs.

ETAP Studies

Load Flow & Short Circuit Analysis, Motor Starting & Relay Coordination Study.

Electrical Control & Power Installations

Modification & up-gradation in existing & new installations.

Turnkey Projects

Installations and commissioning in Green Field & Brown Field.

Service Level Agreement

Monthly, Quarterly, & Annually plans for Maintenance Services.

A Venture by

Since 1964 S.A. Hamid & Co. is providing services in electrical controls and engineering solutions in the market. We specialize in electrical panel manufacturing, solar solution & services, electrical design and consultancy. We also offer automation and energy monitoring solutions, complemented by our Industrial Internet of Things (IIoT) services. Additionally we supply a comprehensive range of equipment for operations and maintenance.
